

NEW LUXURIES TAX IN EFFECT APRIL FIRST

Tuesday morning the new excise or 'luxury' tax became effective.

This tax differs materially from all other war assessment levies in that the consumer is compelled to pay the tax, and not the manufacturer. All the provisions of the new enactment, however, do not go into effect on that date.

Beginning this month the purchaser must pay to the government 5 per cent of the total cost of all precious or semi-precious stones and imitations, jewelry, and pearls, at the time the purchase is made. The same rate applies to all articles mounted or ornamented with precious metals or imitations, ivory and watches, clocks, opera glasses, lorgnettes, marine glasses, field glasses and binoculars. The returns to the tax collector is made by the store in which the purchase is made, the five per cent tax being merely added to the sale price.

Larger in scope, and particularly aimed at May 1, is the tax which will go into effect May 1. No longer will the members of the fair sex stroll languidly into the drug store and purchase new complexion. The purchase will be a matter of deep thought in the future. Under this law a tax of one cent on each 25 cents or fractional part of the total cost will be collected by the government on the following articles: Perfumes, essences, extracts, toilet waters, cosmetics, petroleum jellies, hair oils, hair dressings and restoratives, hair dyes, tooth and mouth washes, aromatic cachous, toilet powders, or any similar preparation intended to be used for toilet purposes.

Ten per cent will be levied on all amount in excess of \$7.50, charged for purses, pocket books, shopping and handbags. Silk stockings costing more than \$2 a pair; kimono, petticoats and waists costing more than \$15, and boots, shoes and pumps valued at more than \$10 per pair are subject to this ten per cent tax, as well as hundreds of other articles too numerous to mention.

Our Versatile Language.

Elsie Alder, the famous prima donna who came first to this country to appear in "Around the Map," is now on a tour in the middle west. She labored under the belief that she had mastered the English language until in a restaurant attached to a small hotel, she ordered bacon and eggs.

"Do you want the eggs under or over," asked the waitress.

Miss Alder stared in confusion.

"I mean," continued the waitress, "do you want them looking at you or away from you?"

Again Miss Alder hesitated.

"Say," can't you tell me whether you want them sunny side up or not?" demanded the waitress testily.

Miss Alder changed her order to broiled chops.

An Honest Witness.

"Now, sir," said the bullying counsel to the witness from the country, "I want you to tell me plainly whether a great effort has or has not been made to make you tell a very different story."

"A different story from the one I have told you sir?"

"That is what I mean."

"Yes sir, several persons have tried to get me to do that, but they could not."

"Now, sir, upon your oath. I wish to know who those persons are."

The witness scratched his head and at last replied:

"Well I guess you've tried about the hardest."

Famous Flagstaff Sport.

John Comer and Sid Stevens left recently for Flagstaff, taking several mules which Mr. Brandis had purchased from the Ray Con company. Mr. Brandis expects to put in a potato crop near Flagstaff this season.—Hayden Item in Copper Camp News.

Beating Father To It.

What did your little ones say when you told them there is no Santa Claus?

"They asked me if I was just finding that out."

EFFECTIVE VACCINATION

Bolshevism Rears Its Head Among the Russian Colony Near Phoenix

The spread of Bolshevik propaganda among the Russians in the valley is reported, together with reliable statements that there is response being made to it, and that in several instances Russians in groups have declared themselves as for the establishment of bolshevism in this country, along the exact lines followed in Russia, in order that they may come into their own.

In one instance last week it is said that an American, disagreeing with I. W. W. bolshevik ideas and propaganda in the Glendale neighborhood, was told that he would have to move or be killed; that his damn country couldn't protect him, that the bolshevik were going to take it and in a few months would kill or run out all of his kind.

This case was to be taken before the department of justice office in this city. If investigation there results in sustaining the report it would appear that deportation of the man admitting bolshevik alliance would come at once.

The fact of adherence to bolshevik ideas by aliens in America, is held by local attorneys consulted in the matter to make enemy aliens of such residents.

The reports concerning agitation among the foreigners dovetail with reports recently current in Phoenix of increased I. W. W. bolshevik activities here, fostered and fathered in the main by certain radicals among organized labor, socialists and anarchists.

It is said that a general gathering of these from all over the country has been called here for May 1, and that recently there had been arrivals daily of I. W. W. in preparation for this meeting, and a program of organization and violence to be furthered thereafter in the valley.

Somewhat confirming this report was the circulation throughout residence parts of the city between 11 p. m. Saturday night and 3 a. m. Sunday morning of an inflammatory publication dealing with the proposed spread of revolution in the United States.—Arizona Gazette.

CLEAN-UP AND PAINT-UP WEEK.

There should be a clean-up and paint-up week in Flagstaff this spring that would accomplish something besides talk. We would not seem to insinuate that the town is at all dirty, or in any sense not perfect, but we would say that there are a lot of old, shabby, falling down, weather-beaten, ugly and disgraceful pieces of property in town that stand sadly in need of the carpenter and the painter. Yards, both front and back, are eyesores and worse. Alleys, stables, barnyards, residences, business houses, vacant lots—scattered all over town, here and there, all speak but slightly in praise of our town. We have just voted a large sum of money from our pockets for the badly needed sewer system. It's time for the individual property owner to vote a little more out of his own pocket for his own property, and a little effort out of his system toward a cleaner and more beautiful town.

First company promoter (to second ditto)—Darned insult, I call it! See what the old scoundrel did? Carefully counted each of his fingers after I shook hands with him.

The Gay Lothario.

Mrs. McSozzie—I sent a photograph of myself to me old man in Paris and the censor pinched it.

Mrs. McNobble—Ain't they flirts?

"But, Mabel, on what grounds does your father object to me?"

"On any grounds within a mile of our house."

PHOENIX HAS ALL KINDS OF TIME AGAIN

There will be no daylight saving in the city of Phoenix. Maricopa county supervisors decided to keep the county clocks at the standard time throughout the summer, and Saturday the Phoenix city commission passed an emergency ordinance to the same effect.

This action of the city and county is likely to cause a conflict of clocks in the Salt river valley. According to Manager Allen of the Western Union, there are 175 clocks in the city controlled by his office, and he has instructions from San Francisco headquarters to set them ahead on the night of the 30th inst.

Unless he receives orders to the contrary, these 175 clocks, which are the principal time keepers of the city, will go ahead one hour, while the other clocks in the city and county will lag 60 minutes behind the standard time.

AFRAID OF BURLESON'S SERVICE

The War Department has made a change in its rules concerning applications for the \$60 bonus to which discharged soldiers are entitled. Hitherto, applicants have been required to send to the Zone Finance Officer in Washington, their original discharges but now it is provided that,

"Hereafter discharged soldiers who have not received the \$60 bonus to which they are entitled need not send their original discharge certificates to the Zone Finance Officer."

"Certified copies of discharges may be presented to the nearest recruiting officer, together with the original discharge, in order that he may make an official notation on the latter."

A lack of confidence in the mails has caused many men to fear that if they sent their discharges to Washington they would never again see them. This tribute to Mr. Burleson's postal service has induced many ex-soldiers to refrain from claiming their bonuses, although they were clearly entitled to the money and needed it in a considerable number of cases very badly. Their discharges, however, were too valuable to risk. Now, they will be able to get their bonuses without the chance of losing their discharges.—New York Sun.

RANGE CONDITIONS GOOD.

M. I. Powers recently returned from a trip through the valley and reports general conditions for sheep men as being good. He says lambing is progressing finely. He made two trips out over the desert and found feed conditions good everywhere. Sheep men are encouraged over the outlook and expect a very prosperous season.

This week Mr. Powers received a wire from the National Wool Growers' Association with headquarters at Salt Lake City, stating that they were informed that wool was selling everywhere for 63c, and asked him for confirmation from this territory. Mr. Powers wired them that several cars of Arizona wool had been consigned to Boston and there sold for 60c, one car bringing 61 1-2c.

Political Cavalry. Every now and then it is said of one statesman or another that he is riding for a fall. Presumably the fall of 1920.

When News Is Not News. The supreme court has held that news is property. Some of it is and then some is "improvements thereon."

Nobody wants your advice and you surely don't want it or you wouldn't give it away.
